

Safety in Shoring – The Proprietary Shoring and Piling Equipment Manual

Addendum March 2009

to be used in conjunction with The Proprietary Shoring and Piling Equipment Manual – 2006

Due to changes and developments in legislation and European and British Standards since publication, the following table should be used to update references to published documents. Substantive requirements of the legislation have not changed, unless noted below.

The Proprietary Shoring and Piling Equipment Manual (2006) – table of update references - March 2009		
page no.	Reference in published Manual	New reference
1, 57	The Construction (Design and Management) Regulations 1994	The Construction (Design and Management) Regulations 2007
57	The Construction (Health, Safety and Welfare) Regulations 1996	The Construction (Design and Management) Regulations 2007: Regulation 31 – Excavations, and Regulation 32 – Cofferdams and Caissons
58	The Construction (Health, Safety and Welfare) Regulations 12 & 13 - Excavations, Cofferdams and Caissons	The Construction (Design and Management) Regulations 2007: Regulation 31 – Excavations, and Regulation 32 – Cofferdams and Caissons
58 / 59	The Control of Noise at Work Regulations 2005	The level at which employers must provide hearing protection and hearing protection zones is now 85 dB(A) (daily or weekly average exposure) and the level at which employers must assess the risk to workers' health and provide them with information and training is now 80 dB(A). There is also an exposure limit value of 87 dB(A), taking account of any reduction in exposure provided by hearing protection, above which workers must not be exposed.
60	BS 5228 Part 1: 1984 Noise and vibration control on construction and open sites	BS 5228 Part 1: 1997 Noise and vibration control on construction and open sites
62	Eurocode 3, part 5	BS EN 1993-5 2007 – Design of steel structures – Piling. National annex is scheduled to be published March 2009
